SECRET.

Dear G. J.,

... I send you herewith for information a copy of a paper by the B.M.R.s. which they instructed me to send under cover of a personal note from myself to each of the Directors of Plans.

Their main object in sending this paper, which expresses certain views of theirs on the matter of the "waiting policy", to the Directors of Plans, was in order that the latter might see something in writing before the anticipated meeting between the J.P.C. and the B.M.R.s. to discuss how and when the French might be brought into our future grand strategy ideas.

Yours ever,

(Sgd) A. W. Clarke
